Job Description

This Company is looking for a Geotechnical Engineer with proven progressive experience in geotechnical explorations and construction observation and testing.

Requirements

- Bachelor's Degree in Civil Engineering with Geotechnical Engineering emphasis or related.
- Colorado Registered Professional Engineer license (or ability to license in Oklahoma).
- 10+ years of experience in geotechnical explorations and construction observation and testing.

Responsibilities

- Manage the geotechnical project delivery, report writing, analyses etc.
- Preparation of geotechnical reports.

Competencies

- Extensive experience in Transportation Sector projects, preferably in Oklahoma.
- Earthwork, foundation, and construction materials observation and testing.
- Strong technical expertise in geotechnical analyses specifically in slope stability, seepage analyses, settlement, retaining walls, shallow and deep foundations are required.
- Good working exposure to dams and levees are preferred, but not required.
