

CAC Recruiting Services

We are an independent recruiting agency, placing qualified individuals throughout the United States

Job Number: 5862

Job Title: Transportation Design Engineer

Location: Oklahoma City, OK

Industry: Construction

Relocation Available: No, the candidate must be local

Job Type: Permanent/Full-Time

Our client, located in Oklahoma City, Oklahoma, is currently seeking to fill the position of Transportation Design Engineer. If you are a motivated and professional individual, who will improve the efficiency of their team, we encourage you to apply today!

Requirements

- Bachelor's Degree in Civil Engineering or related.
- PE.
- 5+ years of highway or roadway design experience.
- Active relationship with ODOT or OTA preferred.
- Proficiency with AutoCAD and related design software.

Responsibilities

- Assist the Department Manager in preparing scope definitions, staffing projections, and other supporting information as necessary for project proposals.
- Assist the Department Manager in scoping and obtaining technical/fee proposals from surveyors, geotechnical engineers, traffic engineers, utility consultants, and other disciplines as needed.
- Coordination with the Department Manager; assemble and lead project teams.
- Take personal responsibility for ensuring a quality product is delivered within budget and on time.
- Efficiently and effectively handle multiple projects and multiple contingencies. Identify challenges that may threaten or compromise the project's ability to meet deadlines and/or ordinary engineering practice (standard of care); seek technical input and/or additional staff as appropriate.
- Organize ODOT drawings and reports in a manner emphasizing clarity and facilitating correct interpretation for the benefit of internal reviews, external agency, or client reviews, and use by contractors that minimizes RFIs, clarification requests, and change orders.
