**Location:** Burlington, VT

**Industry:** Healthcare

**Relocation Available:** Yes, from within the continental United States

**Job Type:** Permanent/Full-Time

Our client, located in Burlington, Vermont, is currently seeking to fill the position of Outpatient Dialysis Nurse Manager. If you are a motivated and professional individual, who will improve the efficiency of their team, we encourage you to apply today!

## Job Description

The Nurse Manager facilitates the realization of the organization's mission, strategic plan, and values at the point of care. Plans for, leads, coordinates and facilitates the provision of quality care and service for a defined population of patients and facilitates the procurement of appropriate supplies/equipment and provides for adequate numbers and mix of staff to deliver nursing care. The Nurse Manager demonstrates excellence in problem solving, leadership, communication, fiscal responsibility and teamwork. The Nurse Manager provides leadership, consultation and collaboration in a dynamic, multidisciplinary teaching environment. She/He collaborates with administrators and other members of the health care team to design, evaluate and improve patient care systems and processes.

## Requirements

- Bachelor's Degree in Nursing (BSN).
- State of Vermont Registered Nurse (RN) license.
- 3+ years of nursing experience.
- 1+ years of Nursing Management or Supervisory experience.

## Multi-Site Management

- Manage 5 in-center hemodialysis units and one home dialysis program.
- 6 direct reports (one nurse supervisor for each dialysis unit).
- 70+ indirect reports.
